**Note: NA 1085 has a hypalon binder whereas Garlock 3700 and Clipper 986 have EPDM binders. The user is responsible to verify the compatibility of the binder with the chemical service.

General note: Information shown throughout this sheet is typical. Your specific application should not be undertaken without independent study and evaluation for suitability. For specific application recommendations consult TEADIT. Failure to select proper sealing products could result in property damage and/or serious personal injury.
